

SAFETY PROTOCOLS IN PERSON SERVICES

kids@thecrossing.church
thecrossing.church/kidscrossing

Effective as of May 28, 2021

The safety of children and those who serve alongside them is of utmost importance in KidsCrossing.

We are implementing the following safety measures during weekend services. We appreciate your patience and flexibility with us as we continue to navigate the pandemic and discern appropriate measures to ensure the safety and well-being of everyone participating in KidsCrossing.

OVERALL + CHECK IN

- Masks will be worn by all staff, volunteers and elementary aged children (K-5th) while participating or serving during weekend services.
- Hard surfaces will be wiped down after each service.
- We ask only one adult escort their child to the room, and the same adult pick up that child.

IN ROOMS

- Hand sanitizing stations have been installed to accommodate and encourage frequent hand washing.
- In elementary rooms we will encourage kids to stay within their own personal space bubble when not participating in games, activities, etc. that require closer interaction.
- Toys and play equipment will be wiped down with EPA-registered disinfectant after each service.
