

# grown-up GUIDE

## Clean water for all continues to be a global outreach priority for The Crossing.

We partner with Living Water International (LWI) to build awareness and make an impact. This year, KidsCrossing is looking to fund **half a well** for a community in Zimbabwe, which is \$6,000.

If you are feeling a nudge to jump in, here's how:

### AWARENESS | Gather up the family. Check out these resources from LWI.

What did you learn? How did it make you feel?

Is there a way to experience their struggle a bit? Perhaps with:

- YOUR TIME... when you want water, wait 60 seconds before you turn it on.
- YOUR EFFORT... in the morning, carry a gallon of water around outside for 2 minutes.

**As you wait or carry, reflect on how much effort it takes others to gather water and how much easier it is for us. Say a prayer.**

REVIEW  
Why water?

### ACTION | As a family, take turns reading this scripture out loud.

*"Love the Lord your God with all your heart, soul, mind and strength.*

*And here is the second one. 'Love your neighbor as you love yourself.'*

*There is no commandment more important than these."*

*Mark 12:30-31*

What in the verse stood out? Why?

Want to join us in raising awareness and money?

Brainstorm! Think: lemonade stands, chores for neighbors, selling toys or clothes or homemade items, giving allowance or birthday money, etc.

**Stay motivated! Find a puddle, river, pond, etc. Collect water in a clear jar. Put it in a visible spot at home. What if this was your only water source?**

### ADVENT | Create a family donation jar to track your progress and bring it to a KidsCrossing Christmas Service!

**Join us in one of The Crossing's favorite, long-standing traditions:**

any money collected during a Christmas service goes toward our efforts with Living Water International!
