

# HELIX SHOW AND TELL

Stan Yoder, The Crossing

A DNA double helix structure is constructed from colorful LEGO bricks, standing on a blue LEGO baseplate with scattered loose bricks. The structure is composed of yellow and blue bricks forming the sugar-phosphate backbone, with red, green, and blue bricks representing the nitrogenous bases. The helix is positioned on the left side of the frame, with the word "INTRODUCTION" in large, bold, white letters with a red outline to its right.

# INTRODUCTION

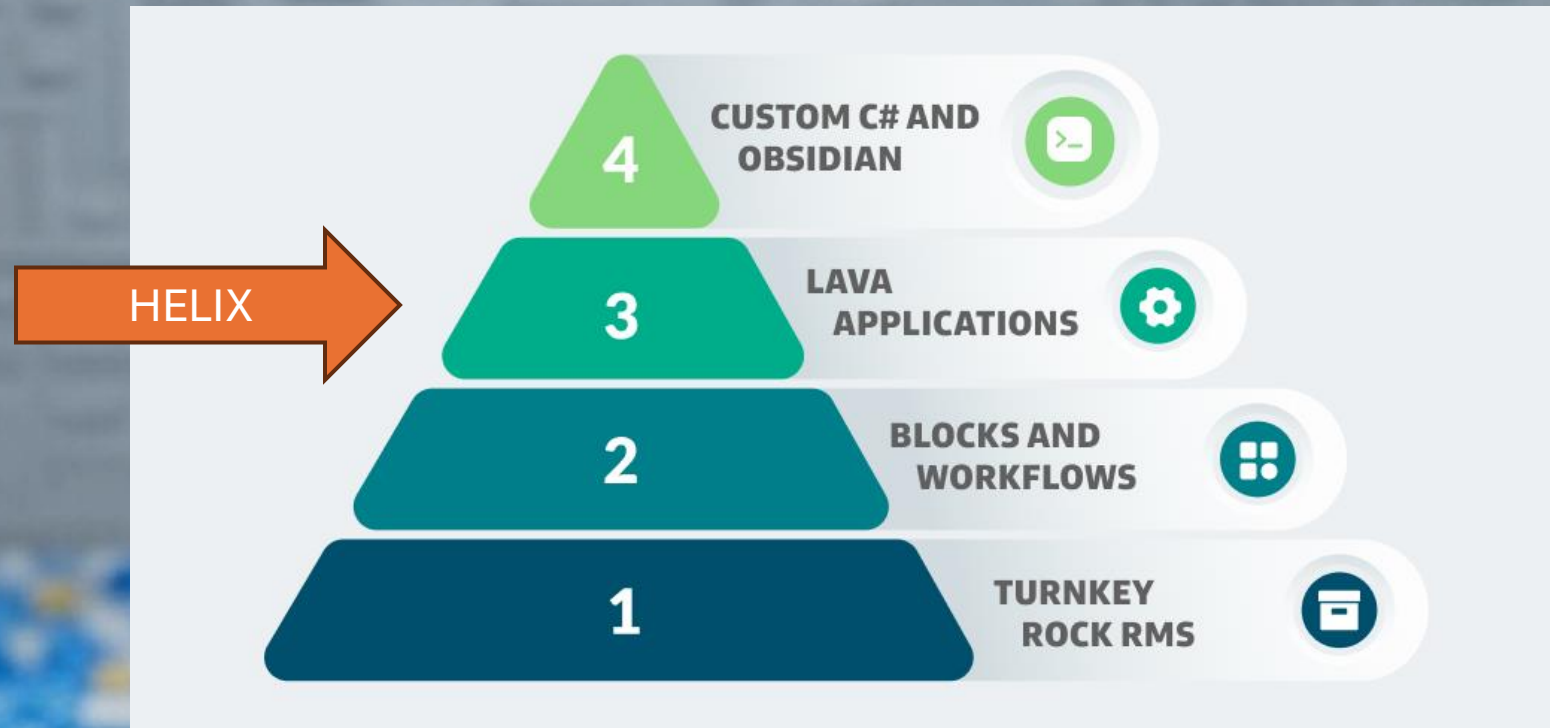

A LEGO DNA double helix structure is built on a blue baseplate. The structure is composed of yellow and blue LEGO bricks forming the sugar-phosphate backbone, and red, green, and blue bricks forming the nitrogenous base pairs. The helix is shown in a three-quarter view, spiraling upwards. The background is a blurred blue baseplate with scattered LEGO bricks.
